

Introduction to the AIR evaluation 2017 P4

Iiri Raa

iri.raa@pmk.agri.ee

Head of Agri-Environmental Monitoring Bureau
Agricultural Research Centre (ARC)

Riga, 27.11.2017

Steps taken to prepare AIR 2017

General

- Agricultural Research Centre – analysing and collecting specific data for P4 and P5 (from data providers + own studies) - by RDP. Providing data for further evaluations if needed.
- Main studies on agri-environment since 2004, adapting and changing study methodology according to the changing needs.
- P4 and P5 Evaluation expert group (pool of external experts).

Specific

- Reviewing EC guidance docs and CEQ-s, assessing the need for additional evaluation criteria, additional indicators, analysing how to best answer the evaluation questions.

Uptake of measures related to P4A, P4B, P4C

FA	Supported area	No of beneficiaries		Secondary contribution
4A	584 788 ha (O5 - agri)	6176	M10.1.1-M10.1.7 – 3199 M11.1, M11.2 – 1446 M12.1 – 1531	0€/0 projects M4.3; M14.1; M19.2; M19.3
	57 739 ha (Natura forest) 176 911 ha (forest)		M12.2 - 4651	
4B	574 814 ha (O5 - agri)	6176	M10.1.1-M10.1.7 – 3199 M11.1, M11.2 – 1446 M12.1 – 1531	0€/0 projects M4.3; M19.2; M19.3
	57 739 ha (O5 - forest)		M12.2 - 4651	
4C	574 814 ha(O5 -agri)	6176	M10.1.1-M10.1.7 – 3199 M11.1, M11.2 – 1446 M12.1 – 1531	0€/0 projects M4.3; M19.2; M19.3
	57 739 ha (O5 - forest)		M12.2 - 4651	

M10: Environmentally Friendly Management (2016 - 454 573 ha), Regional Soil Protection Measure (10 564 ha); Environmentally Friendly Horticulture (67+950 ha); Management of Semi-Natural Habitats (26 570 ha); Growing local variety (457 ha). M11: 153 901 ha

Implementation of common indicators for target areas

Focus area	Result indicator	Target value (2023)	Current value (2016)	Implementation rate
4A	% of agricultural land under management contracts to improve biodiversity	70,3%	61,1%	86,9%
4B	% of agricultural land under management contracts to improve water management	63,9%	60,0%	93,9%
4C	% of agricultural land under management contracts to improve soil management	71,0 %	60,0%	84,6%

Steps for AIR 2019?

- Looking forward to AIR 2019, remaining questions to be solved in 2018:
 - How to assess in-depth P5?
 - How to assess P4 and P5 input in RDP innovation (CEQ)?
 - How to assess Leader share in P4 and P5?
 - How to assess secondary effects in case of insufficient data?
 - Lack of understanding how PA is exactly calculating indicators

Thank You!
